Seating comfort: ergonomic and flexible

In Lufthansa Allegris Economy Class, your customers will enjoy just the flexibility and extras they would want for a relaxed flight within their budget. The new generation of ergonomic and spacious seats has individually adjustable headrests and offers pleasant seating comfort.

Recommend the **Classic Seat** for more well-being and generous space. Or the **Legroom Seat** with 7 cm more legroom for relaxation or the **Extra Legroom Seat** with at least 7.5 cm more space. Travelers who want to deboard the plane faster after landing will like the **Preferred Zone Seat** in the forward section of Economy Class. With the **Free Neighbor Seat**, you can book your customers even more space and comfort, because their neighboring seat is then guaranteed to remain empty.

Lots of clever details in Economy Class

Additional highlights turn the flight into a comfortable travel experience: a **13.3-inch touchscreen monitor** and **Bluetooth connection** for private headphones, a **storage compartment** and **space** for personal belongings, as well as innovative and **comfortable seat cushions**.

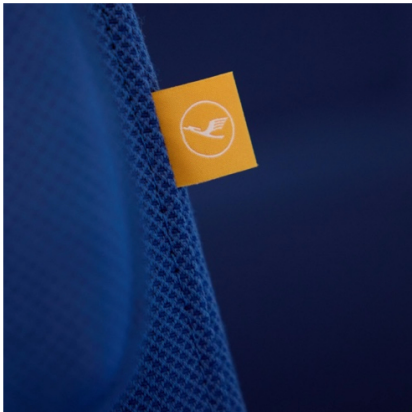

„More space and comfort – small details ensure a pleasant travel experience.“
