

Dear Trade Partner,

Excess Baggage on Galileo

Etihad Airways is pleased to announce that we have successfully introduced the excess baggage (XBAG) ancillary on Galileo (1G). You can now conveniently book XBAG through Galileo GDS, making it easier to offer your guests additional baggage options at the time of booking and in advance of the trip.

To book XBAG in Galileo (1G), follow the steps listed on [Etihad Hub](#). If you have any questions, please reach out to your local Galileo helpdesk team for assistance.

We are currently working closely with Sabre/Abacus to introduce similar capabilities, with more details to follow next month.

Thank you for your continued partnership and support.

Kind regards,
Etihad Airways
