

Dear Business/Travel Partner,

Greetings from IndiGo!

We would like to inform you of important network and schedule adjustments across select international long-haul routes to accommodate external operational constraints including continuously changing airspace constraints due to changing geopolitical circumstances along with congestion at airports both in India and abroad.

To further strengthen the consistency and on-time performance of our B787-9 operations, IndiGo is undertaking planned adjustments designed to enhance schedule robustness and operational efficiency. These enhancements are being introduced to restore operational reliability and to maintain a seamless travel experience across our widebody network.

We would like to highlight that our **non-stop connectivity between Europe and India**, from seven weekly flights from **Amsterdam to Mumbai**, and our **non-stop flights three times weekly from Athens to**

**Mumbai, alongside three weekly flights from Athens to Delhi are also available for sales.** These services are already enhancing travel options between Europe, India, and beyond offering greater accessibility and flexibility for **leisure travelers, corporate customers, and marine/offshore passengers** alike.

Are you looking for specific fares or availability?

Are you missing India-bound opportunities?

Or are you, as an **(NON)-IATA agent**, still unable to book IndiGo and issue tickets via **BSP**?

If so, we encourage you to contact your **local IndiGo Sales Account Manager**, who will be happy to support you and ensure you can fully benefit from these routes.

With warm regards,

*IndiGo – Sales Team Benelux*
