## Travelling with Batteries?

As part of Airlink's ongoing focus on passenger safety, and in line with international awareness driven by IATA, passengers are reminded that power banks and devices containing lithium-ion batteries must be carried in hand luggage and not in checked baggage.

These guidelines are in place to ensure any potential issues can be managed safely during your journey.

## GDS Refunds and update ADM Policy

We are experiencing high volumes of GDS refunds for refundable tickets, where agents are not applying the admin fee on refundable tickets.

Please make sure you are familiar with Airlink Refund Policy and Airlink ADM Policy and check [THIS link](#) for more information about these policies.

We highlight violation of churning what will result in an ADM.
