Increase in Distribution Cost Recovery (DCR) Surcharge on all GDSs

Dear Travel Partner,

As part of Oman Air's revised commercial strategy, and in line with increased distribution costs and industry practices, Oman Air will increase its Distribution Cost Recovery (DCR) Surcharge from **USD 10 per segment** to **USD 13.5 per segment**, effective **1 July 2026**.

The revised DCR Surcharge of USD 13.5 per segment will be filed under the **YR tax code** and will be applied uniformly across all GDSs and all global markets. It is applicable to all fare types and booking classes on all WY and codeshare flights.

Please note that the DCR Surcharge does not apply to bookings made through Oman Air's direct channels, including NDC distribution channels.

Application of DCR Surcharge:

- The DCR Surcharge applies to all segments (domestic and international) booked via GDSs by travel agents and distribution partners.
- It is filed under the YR tax code and is non-commissionable and non-refundable.
- No discounts apply to the DCR Surcharge.
- The surcharge will be reviewed periodically and is subject to change.
