## Air Canada unveiled its next-generation “Glowing Hearted” cabin

A major investment focused on enhancing comfort, design, and overall customer experience.

The new cabins will debut on the Airbus A321XLR and Boeing 787-10, featuring upgrades across all classes, including larger 4K screens, Bluetooth connectivity, and improved seating.

Notably, the A321XLR will offer Air Canada’s first-ever lie-flat seats on a single-aisle aircraft, while the 787-10 will introduce the new Signature Plus Suites with added space and privacy. The redesigned interiors reflect a distinctly Canadian look and feel, combining premium materials with thoughtful design touches
